

# GEOHELLAS

Technical clays. Natural solutions.

## Industrial Absorbent Solutions

Clay absorbents for a cleaner and safer workplace

The ABSO-PRO® range of industrial absorbents from Geohellas derives directly from attapulgite clays, renowned for their absorbent properties. As a result, we are able to provide clay absorbents for general applications such as cleaning and maintenance, as well as non-slaking granules suited to specific tasks.

Ideal for everyday and emergency use, the ABSO-PRO® industrial absorbent product range offers proven, safe, effective performance in the workplace without impacting the environment.

### Commitment to improvement

Our team of experts is committed to improving performance, efficiency and output through every product. This value-adding approach has secured for Geohellas a growing industry reputation.

### Dedicated to quality

Geohellas is driven to raise the standards of all our products, services and activities. The company has duly established a quality management system to guarantee consistently excellent quality for all its products, a system that conforms to the ISO 9001/2008 norms as certified by Germanischer Lloyd.
