

Industrial absorbents for safer working environments

Geohellas offers industrial absorbent solutions for scenarios of varied size and scale. Fast, environmentally friendly and effective, the ABSO-PRO® range contributes significantly to the safety, cleanliness and operational efficiency of the workplace.

Industrial Absorbents: ABSO-PRO®

The ABSO-PRO® range of industrial absorbents from Geohellas derives directly from attapulgite clays, renowned for their absorbent properties. We offer inert absorbents with proven performance in both routine and emergency applications.

About Geohellas

The exclusive European source for attapulgite clay and custom attapulgite/saponite blends, Geohellas is an industrial minerals company whose abundant mineral resources are complemented by professional strength in depth. Featuring an expert, dedicated R&D department and leading-edge manufacturing facilities, Geohellas delivers an expanding portfolio of superior technical clay products that enhance product quality and performance for clients in various business sectors.

The Geohellas team is committed to improving the performance, efficiency and output of our customers' products. This value-adding approach has secured for Geohellas a growing industry reputation. Moreover, Geohellas has established an advanced quality management system to guarantee consistently excellent quality for all its products, a system that conforms to the ISO 9001/2015 norms as certified by Lloyds Register.
